PROJECT	DESCR	COST	NBV
F18189CF	GROUNDWATER REMEDIATION	131,417.81	131,417.81

NOTE: Project is estimated to be ongoing for several more years. DAC is not able to capitalize at this date because work consists of design effort only. Future effort will be required. Determination needs to be made as to whether DAC or another agency will finish project. If DAC incurs costs in the near term MDRC will accept billing for this project.
